

## IMPORTANT INFORMATION

## ABOUT YOUR VIEWING APPOINTMENT

We're pleased to introduce you to the Donaumarina Studios & Apartments residential project in more detail and to show you its high-quality features. Here are some important tips for your visit to the construction site in order to ensure your safety:

### DO'S AND DON'Ts ON THE CONSTRUCTION SITE

#### FOOTWEAR REGULATIONS

According to construction site regulations, persons wearing open-toed shoes (e.g. sandals and flip-flops) or shoes with high heels are not allowed to enter the site due to an injury hazard. The site supervisor will check your footwear before you enter the construction site, and if your footwear is unsuitable, a new viewing appointment will be arranged to ensure your safety.

#### HYGIENE MEASURES

Safety and hygiene are very important to us. For your protection and the protection of on-site personnel, we ask you to adhere to the following rules of conduct:

- Please bring **facial protection** to the viewing appointment.
- **Disinfectants** will be made available (at the entrance and the exit and in the apartment itself).
- Maintain a minimum **distance** of one metre from other persons.

#### MEETING POINT & PROCEDURE

Across from the U2 Donaumarina station  
Wehlistraße 330, 334  
1020 Vienna, Austria

- You must **sign the construction** site regulations before entering the construction site. Signing the regulations means that you will adhere to the relevant guidelines.
- **Sturdy footwear** must be worn to be allowed to enter the construction site.

## ATTENTION!

Please note that, due to building regulations, children under 14 years of age and pets are not allowed on the construction site, nor are they allowed to wait in front of the construction site during the viewing appointment. The same applies to objects of any kind (e.g. bicycles, baby strollers, scooters, etc). The construction site is not barrier-free.
